

Proposed “Plastic Check-out Bag Ban” Bylaw: Lincoln

ARTICLE : To see if the Town will vote to amend the General Bylaws by adopting a bylaw entitled “Plastic Bag Ban” as follows, or take any other action relative thereto:

Section I Findings and Purpose

Plastic check-out bags have a significant impact on the marine and terrestrial environment, including but not limited to: 1) harming marine and terrestrial animals through ingestion and entanglement; 2) polluting and degrading the terrestrial and marine environments; 3) clogging storm drainage systems; 4) creating a burden for solid waste disposal and recycling facilities; 5) requiring the use of non-renewable fossil-fuel in their composition. Studies have shown that even alternative “compostable” or “biodegradable” bags require very specific and controlled conditions in order to biodegrade, and have potentially negative environmental effects similar to conventional plastic bags. Such bags should therefore be subject to the same restrictions as conventional plastic check-out bags.

The purpose of this Bylaw is to protect the Town’s unique natural beauty and irreplaceable natural resources by reducing the number of single-use plastic checkout bags that are distributed in the Town of Lincoln and to promote the use of reusable bags.

Section II Definitions

The following words shall, unless the context clearly requires otherwise, have the following meanings:

“Check-out bag” shall mean a bag provided by a store to a customer at the point of sale. Checkout bags shall not include bags, whether plastic or not, in which loose produce or products are placed by the consumer to deliver such items to the point of sale or check out area of the store.

“Health Agent” shall mean the Health Agent for the Lincoln Board of Health or his/her designee.

“Recyclable paper bag” shall mean a paper bag that is 100% recyclable and contains at least 40% post-consumer recycled content, and displays in a visible manner on the outside of the bag (1) the word “recyclable” or a symbol identifying the bag as recyclable and (2) a label identifying the bag as being made from post- consumer recycled content and the percentage of postconsumer recycled content in the bag.

“Reusable Check-out bag” shall mean a sewn bag with stitched handles that is specifically designed for multiple reuse and that (1) can carry 25 pounds over a distance of 300 feet; (2) is machine washable; and, (3) is either (a) made of natural fibers (such as cotton or linen); or (b) made of durable, non-toxic plastic other than polyethylene or polyvinyl chloride that is generally considered a food-grade material that is more than 4 mils thick.

“Retail Establishment” shall mean any business facility that sells goods directly to the consumer whether for or not for profit, including, but not limited to, retail stores, restaurants, pharmacies, convenience and grocery stores, liquor stores, seasonal and temporary businesses.

“Thin-Film, Single-Use Plastic Check-Out Bags” shall mean those bags typically with handles, constructed of high-density polyethylene (HDPE), low density polyethylene (LDPE), linear low density polyethylene (LLDPE), polyvinyl chloride (PVC), polyethylene terephthalate (PET), or polypropylene (other than woven and non-woven polypropylene fabric), if said film is less than 4.0 mils in thickness.

Section III Regulated Conduct
