Medicare Updates from SHINE

Lower Your Costs with Medicare Savings Programs. The income and asset limits for the Medicare Savings Programs have increased for 2020. The Medicare Savings Programs are also called “MassHealth Buy-In” and are administered by MassHealth. If you qualify, these programs will pay your Part B premium and in some cases your Part A and B deductibles, co-pays and Part A premium (if you have one). In addition, you will automatically receive Extra Help, a program that will lower your Medicare Part D premium and co-pays. To be eligible, an individual must have a monthly income no higher than $1,738 and assets of no more than $15,720. These increase to $2,346 and $23,600, respectively, for married couples. Prescription drug co-payments (30-day supply) with Extra Help are now $3.60 for generic and $8.95 for brand name drugs. To learn more and to request an application, contact MassHealth at: 1-800-841-2900 or TTY at: 1-800-497-4648. SHINE counselors and the COA have applications available. Applications are also available on-line at: https://tinyurl.com/MassMSP

2020 Medicare Part D Prescription Drug Plans. Information obtained by using the Medicare PlanFinder may have been inaccurate due to programming errors. Therefore a Special Enrollment Period is in effect for anyone experiencing unusually high prescription drug out-of-pocket prescription drug costs as of January 1st. You should call 1-800-Medicare and state you feel the information received by using the Medicare PlanFinder was inaccurate and request a Special Enrollment Period (SEP). If the Medicare call center you reach seems confused about this, ask to speak with a supervisor. Note: You can obtain this SEP only by calling 1-800-Medicare.

**This Month’s Speakers**

**February 3: Ariane Liazos — Reforming the City: The Contested Origins of Urban Government, 1890–1930**

Most American cities are now administered by appointed city managers and governed by councils chosen in non-partisan, at-large elections. In the early twentieth century, many urban reformers claimed these structures would make city government more responsive to the popular will. But on the whole, the effects of these reforms have been to make citizens less likely to vote in local elections and local governments less representative of their constituents. How and why did this happen? Lincoln resident and author Ariane Liazos will examine the urban reform movement that swept through the country in the early twentieth century and its unintended consequences.

**February 10: Matt Burne—Exploring the Natural History of Walden Woods**

Henry Thoreau famously walked the forests and fields of the historic Walden Woods for hours every day, collecting the grist for his important mill. Walden Woods, in Lincoln and Concord, today are largely protected and open to the public for recreation, connection, and inspiration. Discover what makes Walden Woods unique and distinct, and some of the natural treasures to be found here. Matt Burne is Conservation Director with the Walden Woods Project.

**February 24: Judith Ann Foster, PhD — The Obesity Epidemic: Why We Must Get The Science Right**

Currently, more than two-thirds of all adults and nearly one-third of all children and youth in the United States are overweight. More than a third of the country is now obese, making the U.S. one of the fattest countries in an increasingly fat world. Mounting research, including a 2016 study in the *Journal of the American Medical Association* (JAMA), suggests that U.S. life expectancy may be starting to decline for the first time since 1993. Most now believe that the increase in obesity is due to 1. the increase in average caloric consumption; 2. the increased consumption of refined carbohydrates high in simple sugars (fructose); and, 3. a sedentary lifestyle with little exercise. Unfortunately, the U.S. Low-Fat Diet Recommendations of 1977 may have contributed to the increase in weight gain. Dr. Foster, is Emeritus Professor of Biochemistry, Boston University School of Medicine.

**Meet Other Independent Scholars for Ideas and Feedback**

Independent scholars who do research in history, the sciences, the social sciences and more, without being formally employed by an academic or research institution are publishing distinguished books and making important contributions to their fields. Sometimes only after you stop working fulltime can you pursue that passion you have been quietly studying for decades but never had the time to fully explore. Lincoln’s own Ray Anthony Shepard is a nationally known independent scholar, award-winning author, and historiographer. Independent scholars and those interested in learning more are invited to join us on **Friday, February 28 at 10:00 am** for the first meeting of the Independent Scholars Gathering. Ray will start us off by discussing his own work and process. If there is interest, we will meet monthly to share resources and ideas, give feedback, and be a scholarly conclave!

Winter Weather Policy
If the Lincoln schools are closed due to weather, activities at the COA are cancelled. If your power is out, however, call to see if Bemis Hall will be open as a place to warm-up, recharge computers and cell phones, and more. Even if the schools are not closed, but the weather is bad, call before coming to see if your event is cancelled.

Thank You for Donations for Holiday Gift Baskets!
A resounding “Thank you!” is due to everyone who generously provided items for the Holiday Gift Basket program this year. About 30 seniors were provided with basic necessities such as new socks, shampoo, kitchen sponges, and deodorant. The response was overwhelming and we are truly grateful to all those who gave. We are especially grateful to the Girl Scouts who led a tremendously successful drive at Donelan’s and the Schools!
