Community Preservation Committee  
Town Offices  
16 Lincoln Road  
Lincoln, Massachusetts 01773

Dear Community Preservation Committee,

The Library and Town Clerk’s Office are interested in submitting an application for a Community Preservation Grant for the Town Archives Stabilization and Expansion Project.

This project is necessary because the materials in the Town Archives are deteriorating. They will be lost to future generations unless we remedy the problems soon.

Neither the vault at the library nor at Town Offices meets the “Performance Standards of Safes and Vaults” that was issued by the Supervisor of Public Records on May 18, 1995. (This technical bulletin is attached to this letter and can be found on the Secretary of State’s web page at: www.sec.state.ma.us/arc/arcrmu/rmutbl/tb11.htm) The problem of most concern for both vaults is climate control. Both vaults are too humid. Furthermore, temperature and humidity fluctuate too much.

The Town Archives Stabilization and Expansion Project would renovate the library vault so it meets the State’s standards for safes and vaults.

Sincerely,

Susan Brooks and Barbara Myles  
Town Clerk Library Director
For the FY09 funding submittals, the CPC has instituted a two-step process for submittal of applications. In order to be considered for recommendation at the March 2008 Town Meeting, preliminary “Letters of Interest” and this form must be submitted prior to September 15, 2007. Should your submittal be determined eligible for consideration, you shall be contacted regarding submittal of a detailed request information, which will be due prior to October 22, 2007.

Project Name: Town Archives Stabilization and Expansion Project

Submitted by: Susan Brooks, Barbara Myles Submission Date: September 14, 2007

Address, Phone, E-mail:
Library: 3 Bedford Road (781) 259-8465 bmyles@minlib.net
Town Clerk’s Office: 16 Lincoln Road (781) 259-2607 brookss@lincolntown.org

Town Committee or Organization (if applicable): Library & Town Clerk’s Office

Brief description of the project:
This is an interior renovation project which will address the serious capacity and climate control issues currently confronting the library vault and the vault area. The library vault is the town’s primary repository for historical and other materials documenting Lincoln’s heritage. The project will include new shelving and the installation of temperature and humidity control and fire suppression systems sufficient to meet archival preservation standards. It will increase the storage capacity of the vault and reconfigure the four rooms adjacent to it.

Time frame for completion of the project:
July 1, 2008 through June 30, 2009

How does this project help preserve Lincoln’s character or further its mission?
The documents that are or ought to be stored in the vault are, to paraphrase documentary film maker, Ken Burns, “the DNA of Lincoln.” The vault is currently at capacity. The existing air treatment system puts its contents at risk of deterioration to the point of destruction.

What are your funding requirements for this project?

Re: Budget Items for the
Historical Vault Renovation Project

Dear Peter:

Per your request I have analyzed the cost escalation to be applied to the current cost estimate dated March 30, 2007. The bid date was assumed to be in Qtr 3 of 2007 with a construction period assumed to take four (4) months. The current estimated bid price of $325,629 was based on the original estimate date of Sept. 20, 2006 which was escalated to the mid-point of construction (Qtr 4 of 2007) at the rate of 8% per year. It is my understanding that the Library now plans to put the project out for bid in Qtr 3 of 2008 following the 2008 Spring Town Meeting. The mid-point of construction would then be in Qtr 4 of 2008. Thus the escalation period to be applied to the March 30, 2007 estimate would be exactly one (1) year. According to our consultant, D.G. Jones International, Inc., the current construction cost escalation rate is 7% per year.
