The Mission of the Lincoln Historical Society

The purpose of the Lincoln Historical Society is to stimulate and deepen an appreciation of the history of the Town of Lincoln.

We seek to engage fellow citizens in learning about our past through programs, publications, special events, and research projects, and we seek to discover, collect, and preserve materials that are of historical significance to the Town.

We believe history is made every day, and we all participate in its creation.

The Lincoln Historical Society was founded in 1961.
